The Energy Dilemma Jared Keen, 2003 Explores the energy crisis on a global scale, covering the environmental, social, political, and economic implications of dependence on non-renewable energy sources.

Globality Hal Sirkin, Jim Hemerling, Arindam Bhattacharya, 2008-06-11 An absolutely stunning -- and scary - wake-up call that reveals how the economic world is about to change dramatically in the next few years as dozens of RDEs (Rapidly Developing Economies) begin to assert themselves as major economic powers. Globalization is about Americans outsourcing product development and services to other countries. Globality is the next step, where rapidly developing economies from around the world are now competing with us head to head. The authors present a strong case that the economic climate in which we have lived is going to change in unprecedented ways. ...their insights into the competitive battle in emerging markets are so keen. -- William J. Holstein of The New York Times Many American chief executives, it turns out, are aiming at emerging markets...And they will find many insights into prevailing in those battles in this book. -- William J. Holstein of The New York Times ...for any corporate strategist pondering the challenges and opportunities of globalization, this book is an indispensable guide. -- John Cummings of Business Finance While the global economy has been a hot topic for at least two decades, it is in constant need of updating ...GLOBALITY...does the job nicely. -- BNET [This] vividly detailed tome describes the latest shift in globalization from a one-way street of Western domination to an increasingly competitive global playing field, where businesses from once-discounted nations are solidifying their standing. -- CIO Insight Whatever the next New World Order turns out to be, the advice in GLOBALITY will come in useful, for multinationals and individual workers alike. -- Business Pundit A smart discourse on how local companies in developing economies, such as China, India and Brazil, are bucking tradition and going for broke on their own terms... -- BNET This book is a must-read for leaders of companies in the developed world who want to get into the globality act and stay in it. -- Cecil Johnson, McClatchy-Tribune News Get ready for a new wave of challengers, 'bursting their way onto the big stage.' So say the three authors of this smart analysis about the latest developments in global competition -- Andrea Sachs of TIME

Unapologetically Black Donald Morton Glover, 2015-03-16 Unapologetically Black is the story of Doni Glover's trek from the streets of East Baltimore to two decades of journalism that has taken him to Canada, Jamaica, Tanzania, Ethiopia and Jordan. Along the way, he has hosted the longest-running customized news talk show in the nation at

Radio One. More importantly, he joined the Fourth Estate twelve years ago when he founded www.bmorenews.com. Since then, his flagship online news service now garners one million hits per month with visitors from 200 nations. Boasting one of the largest African American news video libraries in the nation, Bmorenews.com has become a voice for the voiceless and a vehicle for change - beginning in the DMV (DC/Maryland/Northern Virginia). Additionally, Glover owns DMGlobal Marketing & Public Relations, a firm dedicated to helping clients expand their footprint in the black community. To date, he works with politicians, lawyers, businesses, non-profits, artists, and authors to help them gain much-needed exposure. Finally, Glover started the Original Black Wall Street SERIES *NYC *MD *DC *ATL in Washington, DC in 2011 with Sisters4Sisters Network, Inc. Since then, he and his supporters have recognized tons of black entrepreneurs and professionals along with the people who support them regardless of race. Honorees receive the Joe Manns Black Wall Street Award. Glover has a couple other ventures happening, too. For one, he founded www.blackwallstreetnews.com to compliment the Black Wall Street SERIES and he also hosts The Glover Report on www.WPBNetworks.com every Wednesday. Politically speaking, Glover has the pulse of the black vote in Maryland. A critical voice representing the African American community, Glover has been called on time and time again for input on the challenges facing Black America. Not only has he been a fixture on local television in Baltimore, he actually made his national television debut in 2014 on The Roland Martin Show on TV One. His hope is that this book will be a source of empowering inspiration to emerging journalists and entrepreneurs. A highly spiritual man, Glover's ultimate aim is to improve the image of black folks worldwide via his own independent media outlets.

The Rice Diet Solution Kitty Gurkin Rosati, Robert Rosati, 2007 The New York Times bestseller. Before Atkins, before the low-carb craze, before counting calories, there was the Rice Diet Program. Founded by a pioneering Duke University physician in 1939, the Rice Diet Program has been helping dieters lose weight quickly, successfully, and permanently. Now, this world-renowned, medically approved weight-loss method can help everyone across the world--and not just those who travel to Durham, North Carolina. The Program offers a high-complex-carb, low-fat, and low-sodium diet that sheds excess body fat at an astounding rate. On average, men lost 28 to 30 pounds per month, and women lost 19 to 20 pounds per month. The diet also cleanses the body of water bloat and toxins, and has been seen to help with such chronic health problems as heart disease, diabetes, and hypertension. Included are hundreds of delicious, easy-to-fix recipes.

A Fool's Errand Lonnie G. Bunch III, 2019-09-24 Founding Director Lonnie Bunch's deeply personal tale of the triumphs and challenges of bringing the Smithsonian National Museum of African American History and Culture to life. His story is by turns inspiring, funny, frustrating, quixotic, bittersweet, and above all, a compelling read. In its first four months of operation, the Smithsonian National Museum of African American History and Culture surpassed one million visits and quickly became a cherished, vital monument to the African American experience. And yet this accomplishment was never assured. In *A Fool's Errand*, founding director Lonnie Bunch tells his story of bringing his clear vision and leadership to realize this shared dream of many generations of Americans. Outlining the challenges of site choice, architect selection, building design, and the compilation of an unparalleled collection of African American artifacts, Bunch also delves into his personal struggles--especially the stress of a high-profile undertaking--and the triumph of establishing such an institution without mentors or guidebooks to light the way. His memoir underscores his determination to create a museum that treats the black experience as an essential component of every American's identity. This inside account of how Bunch planned, managed, and executed the museum's mission informs and inspires not only readers working in museums, cultural institutions, and activist groups, but also

those in the nonprofit and business worlds who wish to understand how to succeed--and do it spectacularly--in the face of major political, structural, and financial challenges.
