Ecodefense Dave Foreman, Bill Haywood, 1987

Munitions of the mind Philip M. Taylor, 2013-07-19 New edition of a classic work on the history of propaganda. Topical new chapters on the 1991 Gulf War, September 11 and terrorism. An ideal textbook for all international courses covering media and communication studies. Considers the history of propaganda and how it has become increasingly pervasive due to access to ever-complex and versatile media. Written in an accessible style and format, this book has proven its appeal to the general reader as the public becomes more and more cynical of the manipulations of the political sphere.

The Great Influenza John M. Barry, 2005-10-04 #1 New York Times bestseller "Barry will teach you almost everything you need to know about one of the deadliest outbreaks in human history."—Bill Gates Monumental... an authoritative and disturbing morality tale.—Chicago Tribune The strongest weapon against pandemic is the truth. Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, *The Great Influenza* provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart. At the height of World War I, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision

of science and epidemic disease.

Role of Federal Military Forces in Domestic Disorders, 1945-1992 (Cloth) Paul J. Scheips, 2005 This volume, covering 1945 to 1992, is the third of three volumes on the role of federal military forces in domestic disorders. Summarizing institutional and other changes that took place in the Army and in American society during this period, it carries the reader through the nation's use of federal troops during the civil rights movement of the 1950s and 1960s and the domestic upheavals of the 1960s and 1970s associated with the Vietnam War. The development and refinement of the Army's domestic support role, as well as the disciplined manner in which the Army conducted these complex and often unpopular tasks, are major themes of this volume. In addition, the study demonstrates the Army's progress in coordinating its operational and contingency planning with the activities of other federal agencies and the National Guard. --from the Foreword.

The Dialectics of Seeing Susan Buck-Morss, 1991-07-01 Walter Benjamin's magnum opus was a book he did not live to write. In *The Dialectics of Seeing*, Susan Buck-Morss offers an inventive reconstruction of the *Passagen Werk*, or *Arcades Project*, as it might have taken form. Working with Benjamin's

vast files of citations and commentary which contain a myriad of historical details from the dawn of consumer culture, Buck-Morss makes visible the conceptual structure that gives these fragments philosophical coherence. She uses images throughout the book to demonstrate that Benjamin took the debris of mass culture seriously as the source of philosophical truth. The Paris Arcades that so fascinated Benjamin (as they did the Surrealists whose materialist metaphysics he admired) were the prototype, the 19th century ur-form of the modern shopping mall. Benjamin's dialectics of seeing demonstrate how to read these consumer dream houses and so many other material objects of the time—from air balloons to women's fashions, from Baudelaire's poetry to Grandville's cartoons—as anticipations of social utopia and, simultaneously, as clues for a radical political critique. Buck-Morss plots Benjamin's intellectual orientation on axes running east and west, north and south—Moscow Paris, Berlin-Naples—and shows how such thinking in coordinates can explain his understanding of dialectics at a standstill. She argues for the continuing relevance of Benjamin's insights but then allows a set of afterimages to have the last word.

Anarchy for the Masses Patrick Neighly, Kereth Cowe-Spigai, 2003 An in-depth look at the most groundbreaking and controversial comic book series of the last decade.

Creative Chemistry Edwin Emery Slosson, 1919

The Arcades Project Walter Benjamin, 1999 Focusing on the arcades of 19th-century Paris--glass-roofed rows of shops that were early centers of consumerism--Benjamin presents a montage of quotations from, and reflections on, hundreds of published sources. 46 illustrations.

The Roving Mind Isaac Asimov, 2010-10-28 Isaac Asimov's death on April 6, 1982, was a great loss to the world of both science and literature. This collection of essays reflects Asimov's extraordinary skill in disseminating knowledge from across the spectrum of human thought. Included are thoughtful and

touching tributes from colleagues and friends who discuss Asimov's work and his inspiration and impact on others.

Lab 257 Michael C. Carroll, 2009-10-13 Strictly off limits to the public, Plum Island is home to virginal beaches, cliffs, forests, ponds -- and the deadliest germs that have ever roamed the planet. Lab 257 blows the lid off the stunning true nature and checkered history of Plum Island. It shows that the seemingly bucolic island in the shadow of New York City is a ticking biological time bomb that none of us can safely ignore. Based on declassified government documents, in-depth interviews, and access to Plum Island itself, this is an eye-opening, suspenseful account of a federal government germ laboratory gone terribly wrong. For the first time, Lab 257 takes you deep inside this secret world and presents startling revelations on virus outbreaks, biological meltdowns, infected workers, the periodic flushing of contaminated raw sewage into area waters, and the insidious connections between Plum Island, Lyme disease, and the deadly West Nile virus. The book also probes what's in store for Plum Island's new owner, the Department of Homeland Security, in this age of bioterrorism. Lab 257 is a call to action for those concerned with protecting present and future generations from preventable biological catastrophes.

The Rise of the West William H. McNeill, 2009-07-30 *The Rise of the West*, winner of the National Book Award for history in 1964, is famous for its ambitious scope and intellectual rigor. In it, McNeill challenges the Spengler-Toynbee view that a number of separate civilizations pursued essentially independent careers, and argues instead that human cultures interacted at every stage of their history. The author suggests that from the Neolithic beginnings of grain agriculture to the present major social changes in all parts of the world were triggered by new or newly important foreign stimuli, and he presents a persuasive narrative of world history to support this claim. In a retrospective essay titled *The Rise of the West after Twenty-five Years*, McNeill shows how his book was shaped by the time and place in which it was written (1954-63). He discusses how historiography subsequently developed and suggests how his portrait of the world's past in *The Rise of the West* should be revised to reflect these changes. This is not only the most learned and the most intelligent, it is also the most stimulating and fascinating book that has ever set out to recount and explain the whole history of mankind. . . . To read it is a great experience. It leaves echoes to reverberate, and seeds to germinate in the mind.—H. R. Trevor-Roper, New York Times Book Review

Bunker Bradley Garrett, 2021-08-03 Since prehistory, bunkers have been built as protection from cataclysmic social and environmental forces, and as places of power and transformation. Today, the bunker has become the extreme expression of our greatest fears- from pandemics to climate change and nuclear war. And once you look, it doesn't take long to start seeing bunkers everywhere. In *Bunker*, acclaimed urban explorer and

cultural geographer Bradley Garrett explores the global and rapidly growing movement of 'prepping' for social and environmental collapse, or 'Doomsday'. From the 'dread merchants' hustling safe spaces in the American mid-West to eco-fortresses in Thailand, from geoscrapers to armoured mobile bunkers, *Bunker* is a brilliant, original and never less than deeply disturbing story from the frontlines of the way we live now, an illuminating reflection on our age of disquiet and dread that brings it into new, sharp focus. The bunker, Garrett shows, is all around us, in malls, airports, gated communities, the vehicles we drive. Most of all, he shows, it's in our minds.

Beyond the Trenches Elżbieta Katarzyna Dzikowska, Agata G. Handley, Piotr Zawilski, 2020 This collection of articles summarises results of investigations into archival materials concerning wartime stories of various nations involved in the Great War. The objective of the authors was to analyse the wartime experience of individuals and local communities as well as whole nations.

Memoirs of a Dada Drummer Richard Huelsenbeck, 1991-06-06 Huelsenbeck's memoirs bring to life the concerns—intellectual, artistic, and political—of the individuals involved in the Dada movement and document the controversies within the movement and in response to it.

Democracy Promotion by Functional Cooperation Tina Freyburg, Sandra Lavenex, Frank Schimmelfennig, Tatiana Skripka, Anne Wetzel, 2016-02-03 This book presents a novel 'governance model' of democracy promotion. In detailed case studies of EU cooperation with Moldova, Morocco, and Ukraine, it examines how the EU promotes democratic governance through functional cooperation in the fields of competition policy, the environment, and migration.
