Alan Ryan

The Making of Modern Liberalism Alan Ryan, 2012 The Making of Modern Liberalism is a deep and wide-ranging exploration of the origins and nature of liberalism from the Enlightenment through its triumphs and setbacks in the twentieth century and beyond. The book is the fruit of the more than four decades during which Alan Ryan, one of the world's leading political thinkers, has reflected on the past of the liberal tradition--and worried about its future. Tracing the emergence of liberalism as articulated by some of its greatest proponents, including Locke, Tocqueville, Mill, Dewey, Russell, Popper, Berlin, and Rawls, the book explores key themes such as the meaning and nature of freedom, individual rights, and tolerance. It also examines how property rights fit within liberal thinking, how work and freedom are connected, and how far liberal freedoms are compatible with a socialized economy. This is essential reading for anyone interested in political theory or the history of liberalism.

Virtue and the Making of Modern Liberalism Peter Berkowitz, 1999-01 Virtue has been rediscovered in the United States as a subject of public debate and of philosophical inquiry. Politicians from both parties, leading intellectuals, and concerned citizens from diverse backgrounds are addressing questions about the content of our character. William Bennett's moral guide for children, *A Book of Virtues*, was a national bestseller. Yet many continue to associate virtue with a prudish, Victorian morality or with crude attempts by government to legislate morals. Peter Berkowitz clarifies the fundamental issues, arguing that a certain ambivalence toward virtue reflects the liberal spirit at its best. Drawing on recent scholarship as well as classical political philosophy, he makes his case with penetrating analyses of four central figures in the making of modern liberalism: Hobbes, Locke, Kant, and Mill. These thinkers are usually understood to have neglected or disparaged virtue. Yet Berkowitz shows that they all believed that government resting on the fundamental premise of liberalism--the natural freedom and equality of all human beings--could not work unless citizens and officeholders possess particular qualities of mind and character. These virtues, which include reflective judgment, sympathetic imagination, self-restraint, the ability to cooperate, and toleration do not arise spontaneously but must be cultivated. Berkowitz explores the various strategies the thinkers employ as they seek to give virtue its due while respecting individual liberty. Liberals, he argues, must combine energy and forbearance, finding public and private ways to support such nongovernmental institutions as the family and voluntary associations. For these institutions, the liberal tradition powerfully suggests, play an indispensable role not only in forming the virtues on which liberal democracy depends but in overcoming the vices that it tends to engender. Clearly written and vigorously argued, this is a provocative work of political theory that speaks directly to complex issues at the heart of contemporary philosophy and public discussion. New Forum Books makes available to general readers outstanding, original, interdisciplinary scholarship with a special focus on the juncture of culture, law, and politics. New Forum Books is guided by the conviction that law and politics not only reflect culture, but help to shape it. Authors include leading political scientists, sociologists, legal scholars, philosophers, theologians, historians, and economists writing for nonspecialist readers and scholars across a range of fields. Looking at questions such as political equality, the concept of rights, the problem of virtue in liberal politics, crime and punishment, population, poverty, economic development, and the international legal and political order, New Forum Books seeks to explain--not explain away--the difficult issues we face today.

Liberalism Ancient and Modern Leo Strauss, 1995-12 Revered and reviled, Leo Strauss has left a rich legacy of work that continues to spark discussion and controversy. This volume of essays ranges over critical themes that define Strauss's thought: the tension between reason and revelation in the Western tradition, the philosophical roots of liberal democracy, and especially the conflicting yet complementary relationship between ancient and modern liberalism. For those seeking to become acquainted with this provocative thinker, one need look no further.

Revolutionaries to Race Leaders Cedric Johnson, 2007 The Black Power movement represented a key turning point in American politics. Disenchanted by the hollow progress of federal desegregation during the 1960s, many black citizens and leaders across the United States demanded meaningful self-determination. The popular movement they created was marked by a vigorous artistic renaissance, militant political action, and fierce ideological debate. Exploring the major political and intellectual currents from the Black Power era to the present, Cedric Johnson reveals how black political life gradually conformed to liberal democratic capitalism and how the movement's most radical aims—the rejection of white aesthetic standards, redefinition of black identity, solidarity with the Third World, and anticapitalist revolution—were gradually eclipsed by more moderate aspirations. Although Black Power activists transformed the face of American government, Johnson contends that the evolution of the movement as a form of ethnic politics restricted the struggle for social justice to the world of formal politics. Johnson offers a compelling and theoretically sophisticated critique of the rhetoric and strategies that emerged in this period. Drawing on extensive archival research, he reinterprets the place of key intellectual figures, such as Harold Cruse and Amiri Baraka, and influential organizations, including the African Liberation Support Committee, the National Black Political Assembly, and the National Black Independent Political Party in postsegregation black politics, while at the same time identifying the contradictions of Black Power radicalism itself. Documenting the historical retreat from radical, democratic struggle, Revolutionaries to Race Leaders ultimately calls for the renewal of popular struggle and class-conscious politics. Cedric Johnson is assistant professor of political science at Hobart and William Smith Colleges.
