A History of American Literature Linda Wagner-Martin, 2015-07-20 A HISTORY OF AMERICAN LITERATURE 1950 TO THE PRESENT Featuring works from notable authors as varied as Salinger and the Beats to Vonnegut, Capote, Morrison, Rich, Walker, Eggers, and DeLillo, *A History of American Literature: 1950 to the Present* offers a comprehensive analysis of the wide range of literary works produced in the United States over the last six decades and a fascinating survey of the dramatic changes during America’s transition from the innocence of the fifties to the harsh realities of the first decade of the new millennium. Author Linda Wagner-Martin - a highly acclaimed authority on all facets of modern American literature - covers major works of drama, poetry, fiction, non-fiction, memoirs, and popular genres such as science fiction and detective novels. Viewing works produced during this fertile literary period from a wide-ranging perspective, Wagner-Martin considers literature in relation to such issues as the politics of civil rights, feminism, sexual preferences, and race- and gender-based marketing. She also places a special emphasis on works produced during the twenty-first century, and writings influenced by recent historic events such as the 9/11 terrorist attacks, Hurricane Katrina, and the global financial crisis. With its careful balance of scholarly precision and accessibility, *A History of American Literature: 1950 to the Present* provides readers of all levels with rich and revealing insights into the diversity of literary forms and influences that characterize postmodern America. “A monumental distillation of an enormous range of material, Wagner-Martin’s rich book should be required reading for anyone grappling with making sense of the prolific, broad-spectrum, and diverse writing in the US since 1950.” Thadious M. Davis, University of Pennsylvania “Linda Wagner-Martin’s history impressively and judiciously surveys all fields of American writing over the past sixty years, taking full account of significant cultural and historical contexts and the major critical commentaries that have helped shape our understanding of developments in the second half of the last century and the dozen years following the millennium. Balanced, informative, and always highly readable there is much here for general readers, students, and specialists alike.” Christopher MacGowan, the College of William and Mary

American Poetry after Modernism Albert Gelpi, 2015-03-09 Albert Gelpi's *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period, from Robert Lowell to Adrienne Rich. Gelpi argues that a distinctly American poetic tradition was solidified in the later half of the twentieth century, thus severing it from British conventions. In Gelpi's view, what distinguishes the American poetic tradition from the British is that at the heart of the American endeavor is a primary questioning of function and medium. The chief paradox in American poetry is the lack of a tradition that requires answering and redefining - redefining what it means to be a poet and, likewise, how the words of a poem create meaning, offer insight into reality, and answer the ultimate questions of living. Through chapters devoted to specific poets, Gelpi explores this paradox by providing an original and insightful reading of late-twentieth-century American poetry.

Twentieth-Century Sentimentalism Jennifer A. Williamson, 2013-12-15 Today’s critical establishment assumes that sentimentalism is an eighteenth- and nineteenth-century literary mode that all but disappeared by the twentieth century. In this book, Jennifer Williamson argues that sentimentalism is alive and well in the modern era. By examining working-class literature that adopts the rhetoric of “feeling right” in order to promote a proletarian or humanist ideology as well as neo-slave narratives that wrestle with the legacy of slavery and cultural definitions of African American families, she explores the ways contemporary authors engage with familiar sentimental clichés and ideals. Williamson covers new ground by examining authors who are not generally read for their sentimental narrative practices, considering the proletarian novels of Grace Lumpkin, Josephine Johnson, and John Steinbeck alongside neo-slave narratives written by Margaret Walker, Octavia Butler, and Toni Morrison. Through careful close readings, Williamson argues that the appropriation of sentimental modes enables both sympathetic thought and systemic action in the proletarian and neo-slave novels under discussion. She contrasts appropriations that facilitate such cultural work with those that do not, including Kathryn Stockett’s novel and film *The Help*. The book outlines how sentimentalism remains a viable and important means of promoting social justice while simultaneously recognizing and exploring how sentimentality can further white privilege. Sentimentalism is not only alive in the twentieth century. It is a flourishing rhetorical

practice among a range of twentieth-century authors who use sentimental tactics in order to appeal to their readers about a range of social justice issues. This book demonstrates that at stake in their appeals is who is inside and outside of the American family and nation.

Urban Underworlds Thomas Heise,2011 *Urban Underworlds* is an exploration of city spaces, pathologized identities, lurid fears, and American literature. Surveying one hundred years of history, and fusing sociology, urban planning, and criminology with literary and cultural studies, it chronicles how and why marginalized populations-immigrant Americans in the Lower East Side, gays and lesbians in Greenwich Village and downtown Los Angeles, the black underclass in Harlem and Chicago, and the new urban poor dispersed across American cities-have been selectively targeted as urban underworlds and their neighborhoods.

The Spanish American Novel John S. Brushwood,2014-07-03 In *The Spanish American Novel*, John S. Brushwood analyzes the twentieth-century Spanish American novel as an artistic expression of social reality. In relating the generic history of the novel to extraliterary events in Spanish America, he shows how twentieth-century fiction sets forth the essence of such phenomena as the first Perón regime, the Mexican Revolution, the Che Guevara legend, indigenismo, and the strongman political type. In essence, he views the novel as art rather than as document, but not as art alienated from society. The discussion is organized chronologically, opening with the turn of the century and focusing on novels from 1900 to 1915 that exemplify various aspects of the nineteenth-century literary inheritance. Brushwood then highlights the avant-garde fiction (influenced by Proust and Joyce) of the 1920s as a precursory movement to the “new” Latin American novel, a phenomenon that came into its own during the 1940s. He then examines the “boom” in Spanish American fiction, the period of extensive international recognition of certain works, which he dates from 1962 or 1963. In each era considered, the development of the novel is placed in dual perspective. One view—that of particularly significant novels in light of others published during the same year—is a cross section of the genre at one particular moment. The second view—that of a panorama of novels published in intervals between significant moments in the history of the novel—is more general and selective in the number of books discussed. Combining the historical with the analytical approach, the author proposes that the experience of a novel in which reality has been transformed into art is essential to our understanding of that reality.

Studies in Classic American Literature D. H Lawrence,1995 *Studies In Classic American Literature Is Valuable Not Only For The Light It Sheds On Eighteenth And Nineteenth Century American Consciousness, Telling 'The Truth Of The Day', But Also As A Prime Example Of Lawrence'S Learning, Passion And Integrity Of Judgement.To Cite Herbert J. Fashion and Fiction Lauren S. Cardon,2016-04-05 During the twentieth century, the rise of the concept of Americanization—shedding ethnic origins and signs of otherness to embrace a constructed American identity—was accompanied by a rhetoric of personal transformation that would ultimately characterize the American Dream. The theme of self-transformation has remained a central cultural narrative in American literary, political, and sociological texts ranging from Jamestown narratives to immigrant memoirs, from slave narratives to *Gone with the Wind*, and from the rags-to-riches stories of Horatio Alger to the writings of Barack Obama. Such rhetoric feeds American myths of progress, upward mobility, and personal reinvention. In *Fashion and Fiction*, Lauren S. Cardon draws a correlation between the American fashion industry and early twentieth-century literature. As American fashion diverged from a class-conscious industry governed by Parisian designers to become more commercial and democratic, she argues, fashion designers and journalists began appropriating the same themes of self-transformation to market new fashion trends. Cardon illustrates how canonical twentieth-century American writers, including Edith Wharton, Theodore Dreiser, F. Scott Fitzgerald, Ernest Hemingway, and Nella Larsen, symbolically used clothing to develop their characters and their narrative of upward mobility. As the industry evolved, Cardon shows, the characters in these texts increasingly enjoyed opportunities for individual expression and identity construction, allowing for temporary performances that offered not escapism but a testing of alternate identities in a quest for self-discovery.
