*Gilbert and Gubar's The Madwoman in the Attic after Thirty Years* Annette R.

Federico,2011-01-25 When it was published in 1979, Sandra M. Gilbert and Susan Gubar's *The Madwoman in the Attic: The Woman Writer and the Nineteenth-Century Literary Imagination* was hailed as a pathbreaking work of criticism, changing the way future scholars would read Jane Austen, Mary Shelley, the Brontës, George Eliot, and Emily Dickinson. This thirtieth-anniversary collection adds both valuable reassessments and new readings and analyses inspired by Gilbert and Gubar's approach. It includes work by established and up-and-coming scholars, as well as retrospective accounts of the ways in which *The Madwoman in the Attic* has influenced teaching, feminist activism, and the lives of women in academia. These contributions represent both the diversity of today's feminist criticism and the tremendous expansion of the nineteenth-century canon. The authors take as their subjects specific nineteenth- and twentieth-century women writers, the state of feminist theory and pedagogy, genre studies, film, race, and postcolonialism, with approaches ranging from ecofeminism to psychoanalysis. And although each essay opens *Madwoman* to a different page, all provocatively circle back—with admiration and respect, objections and challenges, questions and arguments—to Gilbert and Gubar's groundbreaking work. The essays are as diverse as they are provocative. Susan Fraiman describes how *Madwoman* opened the canon, politicized critical practice, and challenged compulsory heterosexuality, while Marlene Tromp tells how it elegantly embodied many concerns central to second-wave feminism. Other chapters consider *Madwoman's* impact on Milton studies, on cinematic adaptations of *Wuthering Heights*, and on reassessments of Ann Radcliffe as one of the book's suppressed foremothers. In the thirty years since its publication, *The Madwoman in the Attic* has potently informed literary criticism of women's writing: its strategic analyses of canonical works and its insights into the interconnections between social environment and human creativity have been absorbed by contemporary critical practices. These essays constitute substantive interventions into established debates and ongoing questions among scholars concerned with defining third-wave feminism, showing that, as a feminist symbol, the raging madwoman still has the power to disrupt conventional ideas about gender, myth, sexuality, and the literary imagination.

But nothing in John Blake's first case could prepare you for the shocking conclusion of his second...

Quest for the Living God Elizabeth A. Johnson, 2011-07-21 'Since the middle of the twentieth century,' writes Elizabeth Johnson, 'there has been a renaissance of new insights into God in the Christian tradition. On different continents, under pressure from historical events and social conditions, people of faith have glimpsed the living God in fresh ways. It is not that a wholly different God is discovered from the One believed in by previous generations. Christian faith does not believe in a new God but, finding itself in new situations, seeks the presence of God there. Aspects long-forgotten are brought into new relationships with current events, and the depths of divine compassion are appreciated in ways not previously imagined.' This book sets out the fruit of these discoveries. The first chapter describes Johnson's point of departure and the rules of engagement, with each succeeding chapter distilling a discrete idea of God. Featured are transcendental, political, liberation, feminist, black, Hispanic, interreligious, and ecological theologies, ending with the particular Christian idea of the one God as Trinity.

**Writing Under** Alan Sondheim,2012 Alan Sondheim's Writing Under explores and examines what happens to writing as it takes place on and through the networked computer. Sondheim began experimenting with artistic and philosophical writing using computers in the early 1970s. Since 1994, he has explored the possibilities of writing on the Internet, whether using blogs, web pages, e-mails, virtual worlds, or other tools. The sum total of Sondheim's writing online is entitled The Internet Text. Writing Under selects from this work to provide insight into how writing takes place today and into the unique practices of a writer. The selections range from philosophical musings, to technical explorations of writing practice, to poetic meditations on the writer online. This work expands our understanding of writing today and charts a path for writing's future.

Leadwork William Richard Lethaby,1893

*Language and Relation* Christopher Fynsk,1996 The most recent version of the "linguistic turn," the revolution in language theory shaped by Saussure's structural linguistics and realized in a sweeping revision of investigations throughout the humanities and social sciences, has rushed past the most basic "fact": that there is language. What has been lost? Almost everything of what Heidegger tried to approach under the name of "ontology" until the word proved too laden by common misapprehension to be of use. Most immediately, this is everything of language that exceeds the order of signification, together with the subject's engagement with this "excess" that is the (non)ground of history and the material site of all relationality, beginning with that unthought that is widely termed "culture." *Language and Relation* returns to this site in close readings of meditations on language by Martin Heidegger, Luce Irigaray, Paul Celan, Walter Benjamin, and Maurice Blanchot. It seeks to move with these authors beyond the order of signification and toward the an-archic grounds of relation (of all relations between self and other, and of relation in general), exploring the possibility for a strong link between issues in modern philosophy of language and contemporary socio-political concerns.
