Ten German Dances Franz Joseph Haydn,1996-02-01 A collection of Intermediate / Advanced piano solos composed by Franz Joseph Haydn.

A History of Singing John Potter,Neil Sorrell,2014-02-13 Why do we sing and what first drove early humans to sing? How might they have sung and how might those styles have survived to the present day? This history addresses these questions and many more, examining singing as a historical and cross-cultural phenomenon. It explores the evolution of singing in a global context - from Neanderthal Man to Auto-tune via the infinite varieties of world music from Orient to Occident, classical music from medieval music to the avant-garde and popular music from vaudeville to rock and beyond. Considering singing as a universal human activity, the book provides an in-depth perspective on singing from many cultures and periods: western and non-western, prehistoric to present. Written in a lively and entertaining style, the history contains a comprehensive reference section for those who wish to explore the topic further and will appeal to an international readership of singers, students and scholars.

Opera in London Theodore Fenner,1994 Theodore Fenner's *Opera in London* offers a vivid portrait of the operatic and cultural life of a London under the influence of Romanticism as perceived by the English press and the public who viewed the performances. In part 1, Fenner discusses the rise of the periodical press in early nineteenth-century London and the critics of these publications who reviewed opera performances, such as Leigh Hunt and William Hazlitt. Fenner lists in the appendixes for part 1 the leading periodicals—including the *Althenaeum*, *Examiner*, and *Spectator*,— the critics, and reviews by leading critics. Fenner, in part 2, examines the productions of Italian opera in London at the King's Theatre, including the problems in theatre management and financing; the varied nature of the audience; the operas and performances— those that were popular and those that failed in the words of the critics and the responses of the audience; the singers; and themes and attitudes of the period as expressed by the critics. In part 3, Fenner explores the same topics for the English operas presented at Drury Lane, Covent Garden, and other playhouses. Parts 2 and 3 also contain extensive appendixes listing seasonal and annual performances and reviews, productions by composers and by librettists, comic and serious productions, operas by known playwrights, and minor singers. Forty-eight illustrations of singers, critics, performances, composers, and theatres add to the richness of this study.

The Art of Music and Other Essays Hector Berlioz,1994-06-22 *A Travers Chants* is the collection of writings selected from his thirty-odd years of musical journalism. These essays cover a wide spectrum of intellectual inquiry: Beethoven's nine symphonies and his opera, *Fidelio*; Wagner and the partisans of the Music of the Future; Berlioz's idols - Gluck, Weber, and Mozart. There is an eloquent plea to stop the constant rise in concert pitch (an issue still discussed today), a serious piece on the place of music in church, and a humorous and imaginative account of musical customs in China.

The Cambridge Companion to Singing John Potter,2000-04-13 Ranging from medieval music to Madonna and beyond, this book covers in detail the many aspects of the voice. The volume is divided into four broad areas. *Popular Traditions* begins with an overview of singing traditions in world music and continues with aspects of rock, rap and jazz. *The Voice in the Theatre* includes both opera singing from the beginnings to the present day and twentieth-century stage and screen entertainers. *Choral Music and Song* features a history of the art song, essential hints on singing in a larger choir, the English cathedral tradition and a history of the choral movement in the United States. The final substantial section on performance practices ranges from the voice in the Middle Ages and the interpretation of early singing treatises to contemporary vocal techniques, ensemble singing, the teaching of singing, children's choirs, and a comprehensive exposition of vocal acoustics.

Handel and His Singers C. Steven LaRue,C. Steven La Rue,1995 From the early 18th century until the present day, opera seria as practised by Handel and his contemporaries has been the subject of satire and even derision for its dramatic artifice and virtuosic displays. Close examination of Handel's autograph manuscripts, the librettos upon which they were based, and other contemporary documents, reveal the extent to which Handel was influenced by his singers and their abilities in

creating his commercially successful and dramatically effective operas. Drawing on evidence from these sources, the author demonstrates the fact that Handel's singers (such as Francesco Borosini, Margherita Durastanti, Francesca Cuzzoni, and Faustina Bordoni) were the single most important influence on his opera composition during his tenure as composer and music director of the Royal Academy of Music from 1719-28.
