Avak Hakobian Roy Weremchuk, 2023-12-15 When conventional medicine fails, reservations about alternative healing methods disappear. This factor led to the young Armenian-Persian faith healer Avak Hakobian being invited to the USA in 1947. His mission: to heal a paralyzed Californian millionaire's son. Then as now, charismatic healers benefit from the assumption that they have access to a mystical source or transcendent energy. Not a few people entrust such supposed healers with their physical as well as their spiritual well-being. Avak Hakobian - From Fame to Failure is the previously untold story of one such healer who for a time made headline news.

Routledge Handbook of Contemporary Indonesia Robert W. Hefner, 2018-01-03 Few countries as culturally rich, politically pivotal, and naturally beautiful as Indonesia are as often misrepresented in global media and conversation. Stretching 3,400 miles east to west along the equator, Indonesia is the fourth most populous country in the world and home to more than four hundred ethnic groups and several major world religions. This sprawling Southeast Asian nation is also the world's most populous Muslim-majority country and the third largest democracy. Although in recent years the country has experienced serious challenges with regard to religious harmony, its trillion-dollar economy is booming and its press and public sphere are among the most vibrant in Asia. A land of cultural contrasts, contests, and contradictions, this ever-evolving country is today rising to even greater global prominence, even as it redefines the terms of its national, religious, and civic identity. The Routledge Handbook of Contemporary Indonesia offers an overview of the modern making and contemporary dynamics of culture, society, and politics in this powerful Asian nation. It provides a comprehensive survey of key issues in Indonesian politics, economics, religion, and society. It is divided into six sections, organized as follows: Cultural Legacies and Political Junctures Contemporary Politics and Plurality Markets and Economic Cultures Muslims and Religious Plurality Gender and Sexuality Indonesia in an Age of Multiple Globalizations Bringing together original contributions by leading scholars of Indonesia in law, political science, history, anthropology, sociology, religious studies, and gender studies this Handbook provides an up-to-date, interdisciplinary, and academically rigorous exploration of Indonesia. It will be of interest to students, academics, policymakers, and others in search of reliable information on Indonesian politics, economics, religion, and society in an accessible format.

Reading Song Lyrics Lars Eckstein, 2010-01-01 Reading Song Lyrics offers the first systematic introduction to lyrics as a vibrant genre of (performed) literature. It takes lyrics seriously as a complex form of verbal art that has been unjustly neglected in literary, music, and, to a lesser degree, cultural studies, partly as it cuts squarely across institutional boundaries. The first part of this book accordingly introduces a thoroughly transdisciplinary interpretive framework. It outlines theoretical approaches to issues such as performance and performativity, generic convention and cultural capital, sound and songfulness, mediality and musical multimedia, and step by step applies them to the example of a single song. The second part then offers three extended case studies which showcase the larger cultural and historical viability of this model. Probing into the relationship between lyrics and the ambivalent performance of national culture in Britain, it offers exemplary readings of a highly subversive 1597 ayre by John Dowland, of an 1811 broadside ballad about Sara Baartman, 'The Hottentot Venus', and of a 2000 song by 'jungle punk' collective Asian Dub Foundation. Reading Song Lyrics demonstrates how and why song lyrics matter as a paradigmatic art form in the culture of modernity.

The African State Abdi Ismail Samatar,Ahmed Ismail Samatar,2002 The African state is more essential than ever for the sustainability of the long march towards political, economic, and cultural development. This volume captures the diversity of African states and leadership by examining eight states from northern, western, eastern, and southern Africa. Contributing African scholars transcend current thinking on the nature of the state and its role in transforming the fortunes of the continent. They establish a conceptual framework that allows for a complex but concrete and integrated analysis of the African state. Leader, regime, administration, and commonwealth provide the four key factors for identification of state types in Africa. Different combinations of these factors produce various types of states ranging from Botswana's relatively integral political system to the cadaverous Somali state. States examined in this collection include: Botswana Ethiopia Ghana Libya Nigeria South Africa Sudan All of the book's contributors have done substantial scholarly works on their respective countries. Their essays provide practical means of assessing reform programs intended to enhance state effectiveness. This book will be of great value not only to scholars, but also to policy makers and others concerned with the construction of a positive future for the African continent.

Last Call Daniel Okrent,2010-05-11 A brilliant, authoritative, and fascinating history of America's most puzzling era, the years 1920 to 1933, when the U.S. Constitution was amended to restrict one of America's favorite pastimes: drinking alcoholic beverages. From its start, America has been awash in drink. The sailing vessel that brought John Winthrop to the shores of the New World in 1630 carried more beer than water. By the 1820s, liquor flowed so plentifully it was cheaper than tea. That Americans would ever agree to relinquish their booze was as improbable as it was astonishing. Yet we did, and *Last Call* is Daniel Okrent's dazzling explanation of why we did it, what life under Prohibition was like, and how such an unprecedented degree of government interference in the private lives of Americans changed the country forever. Writing with both wit and historical acuity, Okrent reveals how Prohibition marked a confluence of diverse forces: the growing political power of the women's suffrage movement, which allied itself with the antiliquor campaign; the fear of small-town, native-stock Protestants that they were losing control of their country to the immigrants of the large cities; the anti-German sentiment stoked by World War I; and a variety of other unlikely factors, ranging from the rise of the automobile to the advent of the income tax. Through it all, Americans kept drinking, going to remarkably creative lengths to smuggle, sell, conceal, and convivially (and sometimes fatally) imbibe their favorite intoxicants. *Last Call* is peopled with vivid characters of an astonishing variety: Susan B. Anthony and Billy Sunday, William Jennings Bryan and bootlegger Sam Bronfman, Pierre S. du Pont and H. L. Mencken, Meyer Lansky and the incredible—if long-forgotten—federal official Mabel Walker Willebrandt, who throughout the twenties was the most powerful woman in the country. (Perhaps most surprising of all is Okrent's account of Joseph P. Kennedy's legendary, and long-misunderstood, role in the liquor business.) It's a book rich with stories from nearly all parts of the country. Okrent's narrative runs through smoky Manhattan speakeasies, where relations between the sexes were changed forever; California vineyards busily producing "sacramental" wine; New England fishing communities that gave up fishing for the more lucrative rum-running business; and in Washington, the halls of Congress itself, where politicians who had voted for Prohibition drank openly and without apology. *Last Call* is capacious, meticulous, and thrillingly told. It stands as the most complete history of Prohibition ever written and confirms Daniel Okrent's rank as a major American writer.

A Civilian Occupation Rafi Segal,David Tartakover,Eyal Weizman,2003-11-17 Bringing together essays and photographs by leading Israeli practitioners, and complemented by maps, plans and statistical data, *A Civilian Occupation* explores the processes and repercussions of Israeli planning and

its underlying ideology. It demonstrates how, over the last century, planning and architecture have been transformed from everyday professional practices into strategic weapons in the service of the state, which has sought to secure national and geopolitical objectives through the organization of space and in the redistribution of its population. In fact, as the book shows, Israeli architecture has consistently provided the concrete means for the pursuit of the Zionist project of building a national home for the Jewish people in the Land of Israel. As such, it is the first study to supplement the more familiar political, military and historical analysis of the Israel-Palestine conflict with a detailed description of the physical environments in which it is played out. The banning of the first edition of this book by its original publisher was proof, if any were needed, that architecture in Israel, indeed architecture anywhere, can no longer be considered a politically naive activity: the politics of Israeli architecture is the politics of any architecture.
