Northern Trader, 2012 There is an authenticity and an excitement about this book on the Canadian North which makes it outstanding. At sixteen, the author, son of an Anglican "sky pilot," wearied, as did Robert Service, of bank clerking and, fired by Fenimore Cooper, Ballantyne, and Stewart Edward White, joined the Hudson's Bay Company at Prince Albert. Before he was seventeen, he was appointed clerk at the fur-trading post of Lac La Ronge. The author possesses an unusual amount of sympathetic understanding. He, and later, his wife and children enter into the lives of the Crees and Chipeweyans and speak the Cree language. He writes extremely well and gives us a most convincing picture, not only of the Indians but also of the "personalities" of his five dogs, the wildlife around him, and the desperate dangers through which they pass. Kemp's North was the vital Canadian North of 1908. That it is rapidly passing, he regretfully pictures in his closing chapter.

Northern Trader H. S. M. Kemp, 2014 First published in 1956, *Northern Trader* is a historically valuable, intimately personal and vividly expressed memoir of the last days of the fur trade.

Journal of an Indian Trader Flores, 1985-12-19 A decade before the celebrated mountain men entered the Northern Plains and Rockies, some dozen little-known trading forays were launched into the plains of the Southwest. Anthony Glass led one of the most important. In 1808-1809, with a party of twelve hunter-traders, he acted as semi-official emissary of the U.S. government in the practically uncharted lands of the Taovaya-Wichita and Comanche Indians. His was the first party of whites ever to view the sixteen-hundred-pound meteorite venerated as a healing shrine by the Plains tribes. Alone among the early southwestern traders, Glass kept a lively journal detailing his route and experiences. Forgotten for nearly two centuries, this journal appears here in its entirety with rich annotation and interpretation by editor Dan L. Flores. Flores offers a novel, sympathetic view of the Indian trader as a sometime instrument of Jeffersonian borderlands diplomacy, and he presents fresh data on the land and its inhabitants. Landscape, photographs, historically important frontier maps, and contemporary paintings of the traders and the Indians, and their ways of life, further develop this tale of Anthony Glass, Indian trader.

Traders, Agents, and Weavers Robert S. McPherson, 2020-03-12 For travelers passing through northern Navajo country, the desert landscape appears desolate. The few remaining Navajo trading posts, once famous for their bustling commerce, seem unimpressive. Yet a closer look at the economic and creative activity in this region, which straddles northeastern Arizona, northwestern New Mexico, and southeastern Utah, belies a far more interesting picture. In *Traders, Agents, and Weavers*, Robert S. McPherson unveils the fascinating—and at times surprising—history of the merging of cultures and artistic innovation across this land. McPherson, the author of numerous books on Navajo and southwestern history, narrates here the story of Navajo economic and cultural development through the testimonies of traders, government agents, tribal leaders, and accomplished weavers. For the first half of the twentieth century, trading posts dominated the Navajo economy in northwestern New Mexico. McPherson highlights the Two Grey Hills post and its sister posts Toadlena and Newcomb, which encouraged excellence among weavers and sold high-quality rugs and blankets. Parallel to the success of the

trading industry was the establishment of the Northern Navajo or Shiprock Agency and Boarding School. The author explains the pivotal influence on the area of the agency's stern and controversial founder, William T. Shelton, known by Navajos as Tall Leader. Through cooperation with government agents, American settlers, and traders, Navajo weavers not only succeeded financially but also developed their own artistic crafts. Shunning the use of brightly dyed yarn and opting for the natural colors of sheep's wool, these weavers, primarily women, developed an intricate style that has few rivals. Eventually, economic shifts, including oil drilling and livestock reduction, eroded the traditional Navajo way of life and led to the collapse of the trading post system. Nonetheless, as McPherson emphasizes, Navajo weavers have maintained their distinctive style and method of production to this day.

The Pearl Frontier Julia Martínez, Adrian Vickers, 2015-05-31 Remarkable for its meticulous archival research and moving life stories, *The Pearl Frontier* offers a new way of imagining Australian historical connections with Indonesia. This compelling view from below of maritime mobility demonstrates how, in the colonial quest for the valuable pearl-shell, Australians came to rely on the skill and labor of Indonesian islanders, drawing them into their northern pearling trade empire. From the 1860s onward the pearl-shell industry developed alongside British colonial conquests across Australia's northern coast and prompted the Dutch to consolidate their hold over the Netherlands East Indies. Inspired by tales of pirates and priceless pearls, the pearl frontier witnessed the maritime equivalent of a gold rush; with traders, entrepreneurs, and willing workers coming from across the globe. But like so many other frontier zones it soon became notorious for its reliance on slave-like conditions for Indigenous and Indonesian workers. These allegations prompted the imposition of a strict regime of indentured labor migration that was to last for almost a century before giving way to international criticism in the era of decolonization. *The Pearl Frontier* invites the reader to step outside the narrow confines of national boundaries, to see seafaring peoples as a continuous population, moving and in communication in spite of the obstacles of politics, warfare, and language. Instead of the mythologies of racial purity, propagated by settler colonies and European empires, this book dissects the social and economic life of the port cities around the Australian-Indonesian maritime zone and lays open the complex, cosmopolitan relationships which shaped their histories and their present situations. Julia Martínez and Adrian Vickers bring together their expertise on Australian and Indonesian history to challenge the isolationist view of Australia's past. This book explores how Asian migration and the struggle against the restrictive White Australia policy left a rich legacy of mixed Asian-Indigenous heritage that lives on along Australia's northern coastline. This book is an important contribution to studies of the coastal, or Pasisir, culture of Southeast Asia, that situates the local cultures in a regional context and demonstrates how Indonesian maritime peoples became part of global migration flows as indentured laborers. It offers a hitherto untold story of Indonesian diaspora in Australia and reveals a degree of Indian-Pacific interconnectedness that forces us to rethink the construction of regional boundaries and national borders.

The Ladies, the Gwich'in, and the Rat Clara Vyvyan, 2015-01-02 In 1926, two British women came from Cornwall to Edmonton and travelled through northern

Alberta, the Northwest Territories, and the Yukon by rail, sternwheeler, and canoe. For the women, it was a liberating experience, yet Vyvyan's narrative, supported by MacLaren and LaFramboise's insightful editorial work, reveals the imperialist attitudes underlying their travels.

Traders and Raiders on China's Northern Frontier Jenny F. So, Emma C. Bunker, Arthur M. Sackler Gallery (Smithsonian Institution), 1995 An important, original study of the (previously denied) cultural contribution of the barbarians to China, and of the trade northward. Focuses on the Han period. The artifacts, abundantly and well-illustrated (200 illus., 40 in color), document the goods and support the argument. Published by the

French Fur Traders and Voyageurs in the American West LeRoy Reuben Hafen, Janet Lecompte, 1997-01-01 ?Frenchmen were far ahead of Englishmen in the early Far West, not only prior in time but greater in numbers and in historical importance,? writes Janet Lecompte in her introduction to French

Fur Traders and Voyageurs in the American West. They were the first to navigate the Mississippi and its tributaries, and they founded St. Louis and New Orleans. Though France lost her North American possessions in 1763, thousands of her natives remained on the continent. Many of them were voyageurs for Hudson's Bay Company, whose descendants would join American fur trade companies plying the trans-Mississippi West. This volume documents the fact that in the nineteenth century Frenchmen dominated the fur trade in the United States. Twenty-two biographies, collected from LeRoy R. Hafen's classic ten-volume *The Mountain Men and the Fur Trade of the Far West*, represent a variety of origins and social classes, types of work, and trading areas. Here are trappers who joined John Jacob Astor's ill-fated fur venture on the Pacific, St. Louis traders who hauled goods to Spanish New Mexico along the Santa Fe Trail, and those who traded with Indians in the western plains and mountains.

Trading Identities Ruth Bliss Phillips, 1998 Indians in northeastern North America produced a variety of art objects for sale to travelers and tourists during the 18th and 19th centuries. This art is of high quality and great aesthetic interest, but has been largely ignored by scholars. This study combines fieldwork, art historical analysis,

Indian Traders on the Middle Border Robert A. Trennert,1981 Between 1827 and 1854, William G. and George W. Ewing of Fort Wayne, Indiana, were important merchants, real estate brokers, and speculators, as well as professional Indian traders. Because these men made it their business to deal with the relatively peaceful tribes on the Middle Border (Pottawatomie, Miami, Sac and Fox), they have not received the attention given to their more glamorous and picturesque counterparts of that era, the Rocky Mountain fur traders. Nevertheless, the House of Ewing dominated trade with the Middle Border tribes, and through its influence in matters of Indian removal, claims cases against the government, and treaty legislation became a potent force in the shaping of American Indian policy. In this chronicle of frontier business and political influence, Robert A. Trennert, Jr., examines the extent of the relationship between businessmen and policy makers and presents an entirely new perspective on the nation's treatment of the native population. By focusing on the activities of a single trading house, this study offers the first systematic investigation of the professional Indian traders and their

influence over the Indians and federal Indian policy. Trennert looks at the many aspects of nineteenth-century Indian affairs from an economic point of view and provides a significant understanding of the working so removal contractors, of Indian claims cases, of the questionable motives behind some treaty negotiations, and of the political pressures involved in the formulation of Indian policy, as well as a unique look at entrepreneurship during the Jacksonian period.
